Dear Frank:

I think that Compton Mackenzie's WATER ON THE BRAIN is just as good as medicine for me and I can say this having only dipped into the first few pages. I had "heavy" reading here but I shall concentrate on this for a few days.

Thanks again for your very good wishes for a speedy and complete recovery. I hope that when I am much further along we can have a talk.

Mrs. Friedman joins me in reciprocating cordial greetings.

Sincerely,

WILLIAM F. FRIEDMAN
