SUBJECT: Security Clearances

3. It is interesting to note that Dr. Ulam has "Q" clearance.

4. On 23 July LCDR R. E. Greenwood, then Acting Chief of AFSA-34, submitted to O3 a memo which stated in part:

"Shortly after the first of June, AFSA-16 advised us that there was no record of any sort of clearance for Dr. Eugene H. Hanson and Dr. Charles Wexler. Dr. Hanson was well known to the Navy element in AFSA, and Dr. Wexler was well known to the Army element. I personally visited 16, and as a result of my visit Captain Young of 16 made a further search and found in some Navy files (presumably OP202) a rather complete investigation of Dr. Hanson on the basis of which it was possible to issue a SECRET clearance."
