

March 11, 1943

Dr. Jan Rajchman
RCA Laboratories
Radio Corporation of America
Princeton, New Jersey

Dear Dr. Rajchman:

Thank you very much for your letter of March 8. I understand that the man in charge of the other project which we are going to visit has made arrangements for our transportation from Princeton Junction Station so that there will be no need to trouble you about that. We expect to arrive around noon on Friday and shall get in touch with you by phone as soon as we reach the Laboratories.

Anticipating a very pleasant visit, I am

Sincerely yours,

William F. Friedman
Director of Communications
Research

March 8, 1943

Mr. William F. Friedman
Director of Communications Research
War Department
Office of the Chief Signal Officer
Washington, D. C.

Dear Mr. Friedman:

Thank you for your letter of March 5, 1943, informing us that it will be convenient for you to visit us on Friday, March 12th.

We have requested written clearance from NDRC for yourself, and Majors Leo Rosen and Frank B. Rowlett. Dr. Stibitz is mailing it today so that there shall be no difficulty with the formalities.

May I suggest that you give us a call when you arrive at the Princeton Junction station so that we can have one of our men pick you up as it is difficult to obtain taxi service from there without advance notice.

Looking forward to the pleasure of seeing you,

Sincerely,

Jan Rajchman /o/s

Mr. George R. Stibitz
Bell Telephone Laboratories
New York, New York

Dear Mr. Stibitz:

I wish to thank you very much for your letter of February 26, in connection with Dr. Hajohman. I shall look forward to hearing from him within a day or two.

Sincerely yours,

William F. Friedman
Director of Communications
Research

 Washington, D.C.

Dear Mr. Friedman:

Mr. A. B. Clark is out of town, and his secretary turned over to me your letter of February 22 about Rajchman.

I do not understand why your letter did not reach Dr. Rajchman. I called him and asked him to write you, however. He says that R.C.A. Laboratories, Princeton, N. J., is the complete address, and he should have gotten your letter.

Sincerely yours,

George R. Stibitz

March 6, 1943

Dr. Jan Rajchman
RCA Laboratories
Radio Corporation of America
Princeton, New Jersey

Dear Dr. Rajchman:

Receipt of your letter of February 27, is acknowledged. On March 12, I am to be at the RCA Laboratories on another matter but expect to have the opportunity to visit your laboratories to learn of the developments which might be of interest. I will be accompanied by two of my associates, Majors Leo Rosen and Frank B. Rowlett, and if it is not asking too much I would like for them to be with me at the time of any demonstration you may be prepared to give.

I do not know whether my regular War Department badge will be sufficient by way of identification so far as your section is concerned because it certainly does not carry with it any external evidence of citizenship. I think probably the same is true in regard to the passes which my associates will carry. Will the badge and the ordinary passes be sufficient evidence of citizenship? In connection with the other project which I am to see at the laboratories I might say that arrangements have been made therefor through Dr. Murray.

Very truly yours,

William F. Friedman
Director of Communications
Research

Dr. W. F. Friedman
Director of Communications Research
Office of the Chief of the Signal Corps
War Department
Washington, D. C.

Dear Dr. Friedman:

Dr. George R. Stibitz, Chief Technical Aide of Section D-2 of the NDRC, mentioned to you recently some of the work we have done under an NDRC contract and thought that it may be of interest to your Cryptanalytic Bureau. He just called to inform us that you have written to us and are awaiting an answer. Your letter must have gone astray since we have not received it.

We believe that our work might possibly help you and would be very glad to show it to you. We hope to hear from you soon so that we may arrange a definite date for a visit to our Laboratories.

Very truly yours,

Jan Rajchman
