Manager, Government Services Department
Potomac Electric Power Company
10th and E Streets, Northwest
Washington 4, D. C.

Dear Mr. Galbraith:

I refer to certain correspondence exchanged between us last November, in connection with a small aluminum structure at the corner of Second and C Streets, S.E.

The structure was removed a few days ago, as forecast in your letter of 9 November, and I wish to thank you and all others concerned with its removal, an action that has much improved the appearance of that corner.

Very truly yours,

WILLIAM F. FRIEDMAN
