Notes:

(1) Does not include responsibility for distribution and security control of COMINT provided by reason of pertinence to deliberations of USCSB.

(2) Does not include distribution and security control responsibility for those members who are also members of USCIB.

(3) Approval by USCIB for indoctrination of individuals not required if the individual is a U.S. citizen under the cognizance of a member department or agency of USCIB.

3. Except as noted above the provisions of the reference are intended to apply.

4. Assignment of distribution and security control responsibilities to an individual member should not be interpreted as restraining any other member from employing secure channels of his own should the need arise. Suitable notifications between the members concerned in such action would, however, be expected in order to avoid undesirable duplication.

5. In addition to the above the OSD member has certified the following interdepartmental activities under his cognizance as having a "need-to-know" and will inform the Executive Secretariat of distribution and security control arrangements within the Department of Defense:
