**GENERAL HEADQUARTERS
SOUTHWEST PACIFIC AREA
CENTRAL BUREAU**

A.P.O. 923
1 June 1945

SUBJECT: Captured Document.

**TO : Commanding Officer, Signal Security Agency, Office of the Chief
Signal Officer, Room 3C 340, The Pentagon, Washington 25, D.C.
ATTN: Mr. W. F. Friedman.**

1. Central Bureau has just received a most interesting document captured at Iloilo, Luzon on the 21st of March 1945. It is a bound mimeographed file entitled "Communications Censorship" dated May 1943 and issued by the GHQ Military Police and GHQ Southern Area Army.
2. A large portion of the book is devoted to a description of various types of cryptographic systems and in particular those types that should be watched for by the military censor. Thus a fair amount of attention is given to methods of concealing text within letters or within other types of correspondence.
3. It is felt that this book will make an excellent contribution to Arlington Hall's cryptographic library.
4. The document is accordingly being sent safehand.

With kindest regards,

A. Sinkov
