October 13, 1936.

Memorandum For Mr. William F. Friedman,
War Plans and Training Division,
Office of the Chief Signal Officer,
Munitions Bldg., Washington, D.C.

Subject: New Patent Application,
Improvement in Cryptographs

1. The documents for the above entitled application have been completed and are submitted herewith for approval and execution prior to the filing of the application in the Patent Office. In addition to the formal patent application to which is appended a photostatic copy of the drawings, you will also find the usual license in favor of the Government.

2. In executing the application, please be sure to sign your full first, middle initial and last names at the three places indicated; then take the oath before a notary public who must also sign and impress his notarial seal. In executing the license you should sign in like manner at one point and have two persons sign as witnesses.

3. The documents should then be returned to this office whereupon the application will be placed in order and duly filed in the Patent Office. You will recall that this case is to be placed in a secret category and in due course steps will be taken to invoke Section 4894 Revised Statutes.

By order of the Chief Signal Officer.

Charles A. Rowe,
Patents Section, Signal Corps.
